

Green Careers Week

3rd to 8th November 2025

Springpod is the perfect place to explore with 45 experiences that you can start today!

A **green career** can be any job, role or occupation that contributes to preserving or restoring the environment and our planet. It can be any industry, not just those seen as 'green.'

Green skills are abilities, attributes, values, attitudes, knowledge, and technical skills needed to adapt services, processes and procedures to support climate change.

SAVE THE DATE!

GREEN CAREERS WEEK

3RD - 8TH NOVEMBER 2025

National Careers Week

NCW

National
Careers

Step 3

Complete the programme anytime and anywhere and gain your certificate upon completion.

Select your experience!

Short Simulations (Approx. 1 hour)

drax

Carbon Capture with Drax

You'll learn more about the role of a Process Engineer, along with an insight into the important role carbon capture and net zero play in combating the climate crisis.

Start now →

Process Engineering in the Energy Sector with Institution of Chemical Engineers

Join IChemE as a Process Design Engineer, as you get to grips with energy engineering and one of the industry's hottest topics: hydrogen fuel switching.

Start now →

Aviation and Aerospace: Sustainable Aircraft with Civil Aviation Authority

Join this Sprint with the Civil Aviation Authority, and use your creative thinking and great ideas to consider the future potential of Sustainable Aviation Fuel (SAF).

Start now →

Work Experience Programmes (Approx. 4 to 8 hours)

CityFibre – A Future Connected

Learn more about what it means to be a responsible business from the UK's largest independent network, with a mission to reach communities, people and places who are disconnected from high-speed internet.

[Start now →](#)

AtkinsRéalis

In this programme, you'll enter the world of AtkinsRéalis as you discover what life could look like in consultancy, transportation, infrastructure, aerospace, technology and much more. Uncover key topics like urban development and smart cities and discover exciting roles in these sectors.

[Start now →](#)

Routes into Rail

This programme offers insights into careers from driving and engineering to data analytics and sustainability management. Find out more about how sustainability managers work towards using the most environmentally friendly techniques in rail.

[Start now →](#)

Catapult Satellites – Space, Data & Innovation

Space is one of the UK's fastest-growing industries, but it's not just about exploring the stars – it's about solving problems right here on Earth. Satellites power our navigation systems, monitor natural disasters, connect remote communities, and even help farmers grow food more sustainably.

[Start now →](#)

Explore MedTech Innovation

See how GE Healthcare and June Medical prioritise sustainability, diversity, and responsibility in MedTech – ensuring innovations are accessible, ethical, and environmentally conscious.

[Start now →](#)

Maritime, Engineering & Sustainability

From the ships that carry 95% of the UK's trade to the green technologies powering tomorrow's ports, maritime is an industry that keeps our country – and the world – moving. Maritime UK brings together the entire sector, championing innovation, sustainability, and opportunity.

[Start now →](#)

The Road Ahead with Core Highways

Get hands-on with activities that mirror the challenges Core Highways professionals face every day – from designing traffic layouts to managing safe road closures. You'll learn about sustainability in construction and reflect on how your skills could fit into this vital industry.

[Start now →](#)

From Blueprints to Reality with Arcadis

From protecting cities against floods to designing greener transport systems, Arcadis is a global leader in sustainable architecture and infrastructure.

[Start now →](#)

Events Work Experience with Adlib

From music festivals and theatre shows to sporting events and conferences, the events industry is all about creating shared experiences. Find out how the industry is working towards greener, more inclusive events – from reducing waste to designing experiences for everyone.

[Start now →](#)

Autotrader – Inside Tech and Account Roles

Understand how the tech sector tackles big issues like sustainability, diversity, and online safety. Explore how businesses ensure technology has a positive impact on people and society.

[Start now →](#)

Engineering Meets Operations with Stepan

From smartphones to sustainable transport, manufacturing powers the products and technologies we use every day. This virtual work experience gives you the chance to explore one of the world's most important industries.

[Start now →](#)

Sustainable Project Planning and Design with WSP

WSP is one of the world's leading engineering and professional services firms — helping clients shape a more sustainable, resilient future. You'll gain insight into the company's global impact.

[Start now →](#)

Connected. Network Rail

Find out how Network Rail is using modern technology to increase safety, sustainability and efficiency on the railways.

[Start now →](#)

Bring Your Future to Life with Welsh Water

In this programme, you'll explore the different processes involved in water and wastewater treatment, and what innovation means at Welsh Water.

[Start now →](#)

Construction Careers with Bowmer + Kirkland

Explore B+K's company culture, including their commitment to sustainability, social value and wellbeing.

[Start now →](#)

Civil Engineers: Shaping the World

The world around you is filled with feats of innovation made possible by civil engineering. From constantly improving transport to tackling the effects of climate change, there's a lot to discover!

[Start now →](#)

Our City, Made Better by You: Transport for London

We'll introduce you to Transport for London (TfL) and the important role it plays in becoming a strong, green heartbeat for London, delivering a safe and sustainable transport system.

[Start now →](#)

Future Creators Wanted with Thales

Covering the aerospace, space, cyber security and digital identity, defence and security sectors, Thales contributes to the safety and security of nations across the globe.

[Start now →](#)

Building Your Future with JLL and Meta

From data and sustainability to project management and entrepreneurship, discover the diverse career paths on offer within this exciting industry.

[Start now →](#)

Avanti West Coast

Find out about Avanti West Coast's commitment to exceptional service and the core values that drive the team to deliver modern and sustainable rail solutions.

[Start now →](#)

Siemens

With a focus on sustainability, digitalisation, and shaping a better future, Siemens offers a range of exciting career opportunities for the next generation of innovators.

[Start now →](#)

Empowering Energy Futures: Virtual Work Experience with Siemens Energy

From sustainability and power generation to energy transmission and employability essentials, you'll dive into topics shaping the future of energy.

[Start now →](#)

Explore Sustainable Careers in Forestry with the Institute of Chartered Foresters

Dive into the world of forestry, discovering everything from sustainable woodland creation to conservation and forest management.

[Start now →](#)

Your Environment Career with the Environment Agency

[Start now →](#)

Decarbonise and Transform: Sustainable Energy Work Experience with Drax

Learn about sustainable energy initiatives at Drax.

[Start now →](#)

Engineering a Sustainable World with Institution of Chemical Engineers

Explore the pivotal role chemical engineering plays in the energy industry.

[Start now →](#)

Geology Careers with the British Geological Survey

From protecting the environment to understanding our past and discovering new resources, geologists play a crucial role in addressing global challenges.

[Start now →](#)

Becoming a Chartered Surveyor with RICS

Learn how professionals use various tools to map the environment.

[Start now →](#)

Met Office Careers – Forecasting Your Future

Find out more about the Met Office, including its history, strategy and values. You will cover topics such as sustainability and equality, diversity and inclusion.

[Start now →](#)

TUI

Explore TUI's diversity and inclusion approach, drive towards sustainability and emerging talent opportunities.

[Start now →](#)

JCB Careers – Engineering and Manufacturing

Explore the innovative work going on in all areas of the company including sustainability initiatives.

[Start now →](#)

Lift Off with the Civil Aviation Authority

What does the future look like for airport accessibility, innovation and sustainability?

[Start now →](#)

Renewable Energy Work Experience with Orsted

Explore green energy solutions such as solar energy and onshore and offshore wind.

Start now →

Energy and Beyond – Work Experience with EDF

Dive into the world of forestry, discovering everything from sustainable woodland creation to conservation and forest management.

Start now →

Digital Tech Work Experience with Yunex Traffic

Learn about sustainable transport solutions

Start now →

Offshore Wind at RWE

Explore the innovative world of offshore wind – from creating offshore wind farms to environmental factors and cutting-edge engineering projects.

Start now →

Aerospace Work Experience with Airbus

Learn about space exploration and how new initiatives help us here on Earth.

Start now →

JLR: Drive your Future

From design and modelling to sustainability, supply chain and engineering, come with us to explore the endless opportunities at JLR

Start now →

Careers in Heritage with Historic England

Embark on a journey to understand, protect and manage England's extraordinary historic environment.

Start now →

Transforming Travel: A Network for the Future with Transport for Wales

Explore core areas across the transport sector, including sustainability, STEM, business and creative careers.

Start now →

Severn Trent Sustainability: Water Industry Work Experience

Discover more about the science behind water – from the water cycle to the innovative efforts into sustainability and technology.

Start now →

Vistry's Careers in Housebuilding

Learn about Vistry and their purpose, social value approach, culture and attitude towards sustainability.

Start now →
